THE SUEWILL BE BETWEEN

THE BONDHOLDERS AND THE CONTROLLER-GENERAL.

The state will not be a party. The law expressly states that it is a contract between the state and the bondholders; and it cannot, therefore, be repealed or modified. Such a law will be required as a condition precedent from every state that wishes to be bonded by the American bondholding and banking association of London.

This association has an ample capital for the objects of its organization. The Rothschilds, Gillis and Barings, of London, together with some of the most influential financial firms of Germany, are said to be the head of the bondholders' association, and receive in exchange for the bonds, the credit of the southern states, by funding their debts and placing them on the markets of the world on a favorable basis, all beneficial to the bondholder and the creditor. It requires a state to pass the indicated law, surrender the control of its debt, hand over the new bonds, and receive in exchange the bonds of London.

The originators of the scheme propose to handle the following debts:

Alabama	\$8,478,018
Arkansas	\$5,648,000
Florida	\$3,888,000
Georgia	\$1,800,000
Louisiana	\$2,000,000
Mississippi	\$2,000,000
North Carolina	\$1,000,000
South Carolina	\$1,000,000
Tennessee	\$1,000,000
Texas	\$2,000,000
Virginia	\$2,000,000
West Virginia	\$1,000,000
Total	\$10,928,018

If the association should handle no more of the debt than that of Georgia, it will not do an immense business.

The following letter has already declared that Georgia is a wayward and impracticable state, with whom it will not deal.

All we advise the association to strictly adhere to this excellent resolution.

It is claimed, however, that the governors of Alabama and South Carolina will recommend the funding of their respective debts at five per cent., and that Ames will urge the funding of the repudiated bonds issued for the planters' bank, in Mississippi. Butler is said to be largely interested in the latter class of bonds. Gov. Kemper and Treasurer Hunter are said to favor the funding of Virginia's debt, but the president of the bondholders, and will try to induce the general assembly to adopt the plan. But we can scarcely believe that any southern state will surrender its sovereignty to the entire extent asked for; although it may be the only feasible way, in some instances, to lift the burdens that rest upon the people of the South.
